

Andrzejki - Saint Andrew's Day 30th November

In Poland during this day we have some parties during which we make some predictions for the future. Students took part in some of them.

Shoes:

First only girls: each girl take off her left shoe. Then we put all the shoes in one line (start the line as far as you can from the door). Then we take the first shoe (the last in the line) and put it at the front (in the direction of the door) and continue untill one shoe reaches the door. The owner of this shoe will first get married. Next boys.

Zapatos:

Primeiro só as nenas: cada nena quita o seu zapato esquerdo. Entón poñemos todos en fila (empezamos tan lonxe como se poda da porta). Collemos o último zapato da fila e o colocamos ao principio en dirección á porta,

e continuamos ata que un dos zapatos chaga á porta. A dona deste zapato será a primeira en casar. Logo os nenos.
